

[date]

Dear Montana [Employer][Workers' Compensation Claimant]:

In June 2013, Commissioner Pam Bucy with the approval of Governor Steve Bullock appointed a group of Montanans to serve on the Labor-Management Advisory Council on Workers' Compensation (LMAC). Members represent the wide range of stakeholders involved in workers' compensation, including injured workers, insurers, claims adjusters, medical providers, attorneys, and insured employers like you.

The purpose of the LMAC is to review and monitor changes to Montana's workers' compensation system and to make recommendations for future improvements. All LMAC meetings are open to the public and every agenda allots time for public comment.

As a workers' compensation [insured employer][claimant], your thoughts on Montana's workers' compensation system, positive or negative, are valued by the LMAC. The LMAC invites you to share your input with them and here are four ways you can do so:

- Send an email to _____@mt.gov
- Go online to the LMAC website, www.mtlmac.com, and use the comment form
- Attend an LMAC meeting. Meeting dates and locations are posted at www.mtlmac.com
- Send a letter to LMAC, c/o Diana Ferriter, Employment Relations Division, PO Box 8011, Helena, MT 59604

Your comments will be shared with the LMAC at their next meeting.

The LMAC wants to hear from you. Please consider responding.

Sincerely,

Diana Ferriter, Administrator
