

***SAMPLE* MEMORANDUM OF AGREEMENT**

The Montana Department of Labor & Industry (Department) offers the following Memorandum of Agreement as a *sample format* for independent contractors to use when contracting with a hiring agent to perform work on a project.

Disagreements between an independent contractor and a hiring agent may arise during a project over such things as to what work is to be done, when it is to be accomplished, how it is to be accomplished and the price to be paid for the service performed. To prevent a misunderstanding, the Department recommends using the *sample* Memorandum of Agreement.

This *sample* is geared towards the construction industry, but may be customized for use of other types of services. The Department is providing this *sample* to illustrate the basic elements of a good contract, there is no requirement that you use this format.

When you perform services as an independent contractor under your independent contractor exemption certificate (ICEC) and in contract, you are acknowledging that:

- You are engaged in an independently established business.
- You are free from the control and direction of your hiring agent.
- When working as an independent contractor and are hurt on the job, you are not entitled to **workers' compensation benefits**.
- If the job ends and you are out of work, you may not use your independent contractor earnings to qualify for **unemployment insurance benefits**.
- Other rights, such as **wrongful discharge and wage protection** statutes do not apply to you as an independent contractor.
- You are responsible for reporting your income and **paying your own taxes**, including state and federal income tax, Social Security tax and Medicare.

The Montana Supreme Court has stated the following four factors are indicators of control in a working relationship:

1. Evidence of control, which includes the right to control;
2. the furnishing of equipment;
3. the method of payment; and
4. the right to fire without liability

The consideration given to each of these factors is not a balancing process. A worker can be found to be an employee simply by the strength of one of the four factors. Conversely, a convincing accumulation of all four factors must demonstrate the worker's independence to be considered an independent contractor.
