

Indoor Air Quality Training

October 24-26, 2017
Lewis & Clark
Interpretative Center
Great Falls, MT
Tickets \$50

Join National Building Specialist **David Hales** and local experts for 3 days of training including school facility walk-throughs on October 26th.

Learn how to identify issues and solutions!

Mold and moisture, ventilation, radon, lead, asthma triggers, pests and pesticides, integrated pest management, energy efficiency, smart schools, playground safety and chemical safety, and best management practices.

This training is designed for YOU!

School Personnel, Sanitarians, Building and Facility Managers, Maintenance Staff, Daycare Providers, Nurses, Housing Inspectors, Property Managers, and others interested in indoor air quality and health. *Stay tuned for more details!*
